PERCUSSION MULTI-RACK FRAME – FCPERC

The **FC DESIGN CORPS** Multi-Percussion Rack is the most stable design available. The offset casters move the center of gravity closer to the center of the frame to prevent tipping, even on uneven surfaces. The removable second tier is height adjustable for single or double-tier use. This frame collapses to 10" width for storage and transport. The Multi-Percussion Rack comes with 8" no-flat casters. All stress points are welded 360° and ground flush. The frame is powder coated for a superior, long-lasting finish.

Instruments attach with any standard 1 1/2" square percussion clamp. Uses accessories: **FC DESIGN CORPS** Accessory Tables (FCTRAPS and FCTRAPL) and **FC DESIGN CORPS** Crash Cymbal Caddy (FCCRASH).

Display Length - 75". Display Depth - 36". Storage Dimensions - 96" x 8".
Height to Top Rail - 34". Max. Height to 2nd Aux Rail - 54".
Ground Clearance - 10".

Accessories/Add-ons are available for FC DESIGN CORPS products.

All **FC DESIGN CORPS** Products are made in the USA and come with a limited 3-year structural warranty.
