PERCUSSION SYNTHESIZER FRAME - FCSYNTH

The **FC DESIGN CORPS** Synthesizer Frame features all-steel construction with 2 decks covered in all-weather carpet. The upper deck includes a height adjustable auxiliary rail and open backsplash to prevent stress on your cables. The 60" x 20" deck gives you plenty of room for your keys and electronics. The lower deck is open across the front for easy access to load your gear, and a 2" backsplash to keep it from being pushed out the other side. This synthesizer frame is height adjustable and comes with 8" no-flat casters. All stress points are welded 360° and ground flush. The frame is powder coated for a superior, long-lasting finish.

Auxiliary rails on three sides are perfect for use with 1 1/2" square percussion clamps. Add a second keyboard with [FC2KEYS](#) attachment or **FC DESIGN CORPS** Accessory Tables ([FCTRAPS](#) and [FCTRAPL](#)). Cover [FCSYNTH-CV](#) is a great way to protect your gear.

Top Deck - 60" x 20". Bottom Deck - 56" x 20".
Minimum Height to Top Deck - 28 1/2". Maximum Height to Top Deck - 28 1/2".
Auxiliary Rail Length - 60". Minimum Space Between Decks - 15".
Maximum Space Between Decks - 24". Ground Clearance - 10".

Accessories/Add-ons are available for FC DESIGN CORPS products.

All **FC DESIGN CORPS** Products are made in the USA and come with a limited 3-year structural warranty.
