## VISUAL STAGE RISER/BOX CRATE

The **FC DESIGN CORPS** Portable Riser/ Box Crate is both a staging solution and a transportation solution. Essentially, this is a 24" (W) by 48" (L) by 36" (H) crate on wheels. Load it with sub-woofers, mains, or whatever gear you need to move. When you get where you need to go, lock the casters, remove the hand rails, fold down the long sides and you have a 48" x 96" x 12" riser. The handrails mount on the back as a safety rail. After the show, fold up the sides, load your gear and roll it away.

FCPLAT4 (4' x 8') is great for back-up singers, horn players, guitar players.  
FCPLAT5 (5' x 8') size is what you will need for a drum set and player.  
Add a **FC DESIGN CORPS** cover FCPLAT4-CV to protect your gear.

### Specifications for 4x8
